D. APPROVAL OF MINUTES:
1. October 7, 2024 – Parks and Recreation Regular Meeting Minutes

Williams motions to approve the Park minutes; approved 6-0

E. AGENDA:

1. Recap Fall Event

Commissioners talk about Fall Fest overlapping with the event Gibbs Farm held. Ultimately, it was a non-factor; people seemed to attend one or the other but not both. Therefore, the commission discussed moving the 2025 Fall Fest up a couple of weeks in hopes that weather would be less likely to impact the event. The weather was perfect this year, but commissioners and staff discussed how it may impact the event in future years and what a backup plan looks like.

Wassenberg says that Falcon Heights Elementary has two gym areas and they'd likely accommodate inflatables. He says that having the event two weeks earlier might be a good idea.

Staff will reach out to the school prior to the 2025 event to determine if they would be a willing backup location in case of inclement weather.

Bradbury asks if the event would be held at City Hall again in 2025.

Staff mentions that the location worked well. It was also nice having the 75th Anniversary celebration indoors beforehand because it gave people a reason to go inside, sit and warm up. That was nice! Staff adds how they would like to grow the event to also include Community Park for a trick or treat trail but that it will take more volunteers.

Faust emphasized community engagement and outreach to grow the event. He suggests adding Punt, Pass and Kick to the fall event and adds that maybe the Lions could help us with it.

Bradbury suggests making it seem even more fall-like with activities. He suggests folk music and bobbing for apples in some capacity.

Goldberg says that one way to have a more hygienic bobbing for apples would be to use a claw / trash-grabbing device.

Brenton suggests moving arts and crafts inside in 2025

Goldberg mentions crafts that were offered in Spring Lake Park.

2. Begin Setting 2025 PARC Goals

The commission reviewed the goals set in 2024 to see what was accomplished and to serve as a starting point to begin developing goals for 2025.

Brenton says that in many cases, it's a simple word change. For example, one 2024 goal is "Develop a small-scale event." This event ended up being Fall Fest. Brenton suggests an updated goal for 2025 to state "Maintain attendance at all City events."

Haight says he would like the commission to help build a playground at Amber Union. Commissioners state that there is a playground there but are unsure of the size and how it's utilized.

Bradbury asks whether either Amber Union or Falcon Town Square have their own neighborhood liaisons based on the size of the buildings. He adds that perhaps community outreach isn't the Parks and Rec's goal since the Community Engagement Commission does a lot of that work.

Bradbury then suggests annual meetings with the other commissions.

Brenton says that perhaps each commission should create and share their annual goals list, which Wassenberg agrees with.

As commissioners discuss additional commission goals, Goldberg suggests exploring community sponsorships for events.

So far, the commission has identified the following goals for 2025 to be further developed and finalized at a future meeting.

1. Maintain attendance and continue growing City events.
2. Collaborate with the Community Engagement Commission to promote events and expand our reach.
3. Continue holding PARC commissions regularly, with a quorum.
4. Maintain a PARC event /agenda calendar
5. Assess ice skating season to make a decision for 2026 by early spring.
6. Implement suggested programming changes and assess
7. Make recommendations of amenities and improvements of all parks through annual park audits.

Information/Announcement

Staff says that the commission will discuss the Community Park playground at the December meeting. And, at a future meeting, the Community Garden should be discussed, as the wait list remains somewhat long for a plot.

G. ADJOURNMENT: 7:44 P.M.

Faust motions to adjourn the meeting;
Approved 6-0

REQUEST FOR ACTION

Meeting Date	December 2, 2024
Agenda Item	E1
Attachment	Community Park Playground Proposals
Submitted By	Kelly Nelson, Administrative Services Director/Deputy Clerk

Item	Community Park Playground Proposals
Description	The City Council approved by resolution 24-62 a release of Request for Quotes for the Community Park playground, seeking renderings from playground vendors. On October 26, 2024, WSB sent a quote package to seven local playground vendors on behalf of the City of Falcon Heights. The following vendors were given a deadline of 11:00 AM on November 26, 2024 to submit a proposal for a playground budgeted at $225,000 with EWF (Engineered Wood Fiber). Vendors were instructed to depict poured-in-place surfacing and perimeter fencing as those will be pending funding received from a MN DNR Outdoor Recreation grant application to be submitted in 2025. - Flagship - Webber - Minn. Wisc. Play - Kompan - Midwest Play - Northland Rec - St. Croix Rec The Parks and Recreation Commission should now review the eleven playground proposals that have been submitted, selecting the Commission's top three playgrounds and noting any final changes requested from the vendor(s) to then make recommendations to the City Council.
Budget Impact	N/A
Attachment(s)	• Playground Proposals
Action(s) Requested	Staff recommends reviewing the playground proposals to suggest any changes from the vendor(s) and to narrow down the selections in order to make a recommendation of the top three preferred designs to the City Council.

EXPRESSION SWING®

See what you've been missing.

THE WORLD'S FAVORITE PLAYGROUND SWING

Expression Swing is GameTime's, patented face-to-face design that positions an adult and a child at eye level while playing together! The result is an intergenerational play experience that promotes the scientific principle of attunement -- the bonding that occurs when adults and children exchange facial expressions.

Leading play scientists, like Dr. Stuart Brown, MD, tell us that when a parent and child's eyes meet, something special happens. The portions of the brain that are responsible for balance and coordination, thought and language are stimulated. This moment of "play attunement" is critical in the development of the parent/child bond and is essential in the early development of a child's life.

Three-dimensional movement, like that experienced during swing play, stimulates the parts of the brain that enhance our emotions and cognitive development.

By combining three-dimensional movement with eye contact, we create a play experience that provides cognitive, emotional and physical benefifits for both adult and child.

EXPRESSION SWING OPTIONS

- **Expression Swing**: The original patented design that brought adults and children face-to-face and eye-to-eye on the playground. Designed for adults and for children ages 24 to 48 months.
- **Expression Swing Toddler**: The biggest idea in playground swings just got smaller. Expression Swing Toddler features a cradle seat for children ages 12-24 months with the same patented face-to-face, eye-to-eye design as the original.
- **Expression Swing Universal**: Create multigenerational play opportunities for adults and children of all abilities with an adaptive swing seat combined with our adult swing seat. The patented design provides the same face-to-face, eye-to-eye design that promotes attunement while at play.
- **Expression Swing Tandem**: A perfect way for two users (ages 5 and up) to experience the fun and excitement of Expression Swing!

ENGINEERED WOOD FIBER

An affordable natural surfacing choice that meets accessibility guidelines.

AT A GLANCE

Maintenance: High **Access:** Mid **Color Options:** N/A **Warranty:** 15/25 years

DESCRIPTION

Engineered wood fiber from GT Impax is a popular choice for projects with initial budget constraints. This maintenance will help to maintain the recommended compacted material depth, thus keeping the surface compliant with applicable standards and warranty. Once the newly installed product has settled, it forms a “knitted” layer that is designed to support a variety of mobility devices including wheelchairs, crutches, and walkers. Providing adequate drainage is an important preventative measure, because wet engineered wood fiber may freeze in sudden climate changes. GT Impax wood fiber is non-toxic, and does not contain paint, chemicals, or additives. It contains minimal bark, and is free of twigs, leaf debris, and other organic materials.

BENEFITS

- Engineered wood fiber gives your playground an attractive, natural look
- Economical initial cost
- Loose fill materials aid in the protection of children who experience lateral falls

BASIC SPECIFICATIONS

Product is manufactured of size controlled softwoods and/or hardwoods which average 1”-2” in length and contain a maximum of 15% fines to aid in compaction. Engineered wood fiber can be installed over bare earth when Geotextile Fabric is used to enhance drainage.

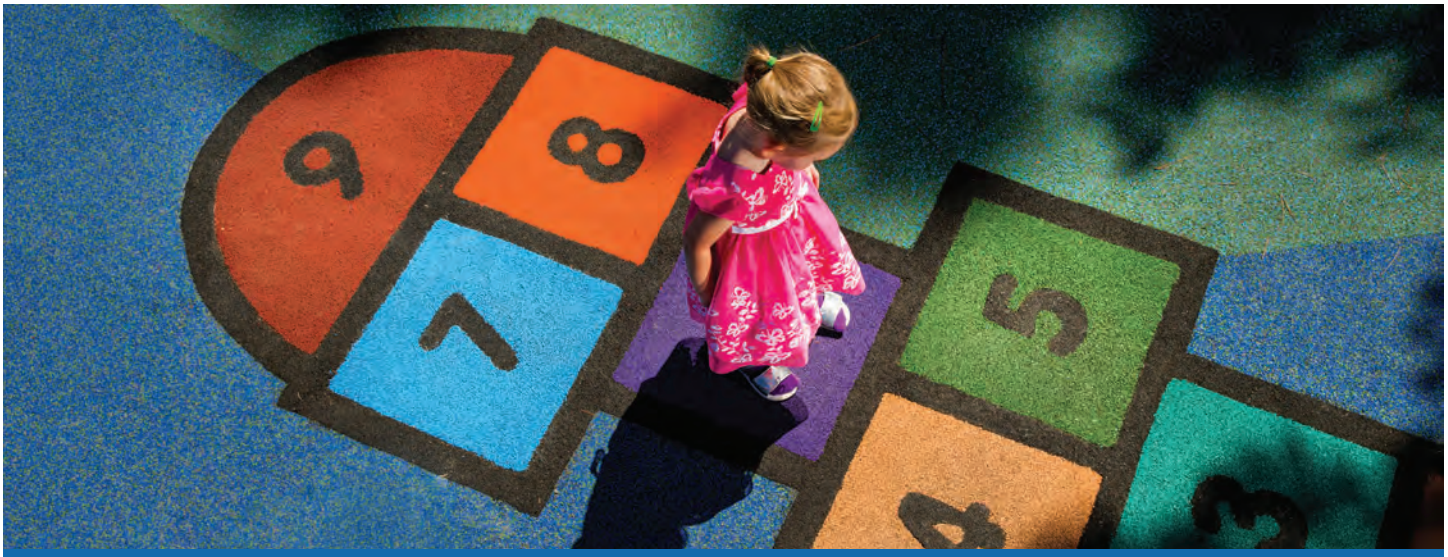
This product meets all applicable ASTM standards. For more information, please refer to our complete product specification.

TIPS

- Use GT Impax wear mats to reduce displacement in “kick out” areas, raking is required to maintain compliant depths
- As with all loose fill surfaces containment systems like our playcurbs will reduce the spread of surfacing to non-play areas
- Install GT Impax drainage systems to prevent freezing or puddling

POURED IN PLACE RUBBER

A durable, accessible surface with creative color and design options.



AT A GLANCE

Maintenance: Mid Low **Access:** High **Color Options:** 12+ **Warranty:** 5-7 years

DESCRIPTION

A popular unitary surface choice, GT Impax PIP provides a seamless, accessible play surface, with many color choices that can be laid in patterns, or mixed to create different shades and tones of color.

GT Impax PIP Rubber requires trained installation crews to produce a surface that is as attractive as it is durable.

The final product will be long-lasting, attenuating, and inclusive.

BENEFITS

- One of the most accessible options available
- Uniform, stable route of travel
- Lower maintenance
- Ideal for themed graphics to add play value and color

BASIC SPECIFICATIONS

Product is comprised of two layers consisting of an impact layer made of clean, recycled rubber and a wear layer, comprised of virgin EPDM or TPV granules. Binder is a basic single component aromatic or aliphatic polyurethane agent. Product is to be installed over asphalt, concrete, or compacted sub base aggregate. Temperature should be minimum of 40-45 degrees and a maximum of 95 degrees Fahrenheit during installation. Thicknesses will vary to meet specific playground equipment fall height. This product meets all applicable ASTM standards. For more information , please refer to our complete product specification.

TIPS

- Mixing black granules with your color choices will help reduce costs
- Some binders may amber initially but eventually return to colorless
- Preventative top-coats are recommended every 12-18 months

This quotation is subject to current MWP Recreation (MWP) policies as well as the following terms and conditions. Our quotation is based on shipment of all items at one time to a single destination, unless noted, and changes are subject to price adjustment. Purchases in excess of $1,000.00 to be supported by your written purchase order made out to MWP Recreation.

Each quote is handled on a per order/project basis. Unless a long-term agreement is in place between purchaser and MWP, terms and conditions of this quotation shall be as outlined herein with no other requirements applicable.

Any changes made to product and/or services after initial order(s) has/have been received by MWP will result in production and/or schedule time frame modifications. Please contact your regional representative to receive a revised schedule for your order/project.

Indemnification; Owner/Owner's Representative will indemnify and hold Minnesota Playground, Inc., dba, MWP Recreation (MWP), harmless for all claims, damages and related costs, including reasonable legal fees and costs, arising out of Owner/Owner's Representative's negligence or noncompliance with any of its commitments under this document. MWP will indemnify and hold Owner/Owner's Representative harmless for all claims, damages and related costs, including reasonable legal fees and costs, arising out of MWP's negligence or noncompliance with any of its commitments under this document.

Excusable Delays/Additional Costs: MWP, and/or its affiliates, shall be liable for default unless delay of performance, whether supplying materials only or including installation in accordance with our project scope, is caused by an occurrence beyond reasonable control of MWP, and/or its affiliates, such as, but not limited to, acts of Superior Force or the public enemy, acts of Government in either its sovereign or contractual capacity, fire, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, delays of common carriers (for transportation of goods whether raw materials or finished product) and attainability of raw materials. Such events resulting in additional costs are not included in quoted amounts and shall be the responsibility of the Owner/Owner's Representative. Any additional costs shall be provided in writing for purchaser's records and shall be due upon payment of invoice.

Northland Recreation, LLC. - Briana Cohen

North Facing South

Northland Recreation, LLC. - Briana Cohen

Friendly Fence
Ages 6mo-5yrs

Friendly Fence invites all the kids in the neighborhood to pet the cat, feed the mouse, and hop with the cricket and frog through slidable parts. Zigzagging droplets can be slid between the watering can and the flowers, while beads can be pushed across twisting vines. Crawl through the flex treads and spin the birdhouse to see who's decided to pay a visit. Peek-a-boo holes, a grassy spot and a colorful window offer additional tactile and social experiences at different heights. Vines and handholds are located across the fence for additional support to ensure everyone can explore.

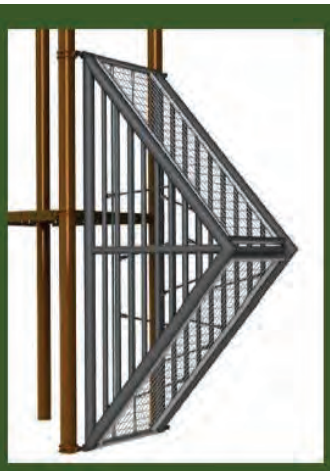
Northland Recreation, LLC. - Briana Cohen

Northland Recreation, LLC. - Briana Cohen

Northland Recreation, LLC. - Briana Cohen

Roundabout Overhead 8’
Ages 2-12

The fun that goes around, comes around! Steel, overhead rungs form a circle for kids to go between structures and back again. As kids explore the multiple play paths of this component, they’ll be developing their upper body strength and coordination.



Nu-Edge X Tower with Diamond Climbers
Ages 5-12

Reach new heights! With the top deck at 168", kids will feel on top of the world. Two enclosed Diamond Climbers with ropes lead up to the top deck in this physical puzzle! Two massive slides from 168" and 96" decks will keep them climbing back up for more.

SOLO SPINNER

Kids of all ages can enjoy the whimsy of Solo Spinner! Friends can take turns giving this unique piece of equipment a whirl, improving their proprioception and vestibular system along the way

Spinfinity Standing

Ages 5-12

Once you start spinning you won't want to stop on this exciting structure! Kids can imagine they're being transported into a new universe or just enjoy getting dizzy with friends.

Northland Recreation, LLC. - Briana Cohen

Ring Challenge Ladder
Ages 2-12

Featuring curved, stationary rungs, this steel overhead climber challenges coordination while helping kids build their strength.

Tilted Rock Wall
Ages 5-12

The Tilted Rock Challenge Wall is built with panels that are offset slightly, giving kids an additional climbing challenge. Textured hand and foot grips make climbing easy and safe.

Northland Recreation, LLC. - Briana Cohen

Infinity Flex Climber
Ages 5-12

Kids can climb to the stars with this twisting component! Featuring organic design with open foot and handholds, Infinity Single Flex Climber comes with an extension that allows climbers to transition to the deck.

Tongue Drum
Ages 2-12

Users can learn to play this classic instrument with ease as they use their palms to tap against all sides of the drum—each producing a different note! Friends can groove to a single player's rhythm or collaborate to create a new song.

Simon Says Reach Panel
Ages 2-12

Spin the wheel to find out what Simon Says! Once a child finishes a task, they can ring the bell and keep track of their score with the panel's moveable buttons. This panel uses inclusive characters and activities to ensure everyone feels welcome and can participate in the fun! Promotes cognitive development, social skills, sensory play.

Northland Recreation, LLC. - Briana Cohen

Weather Game Panel
Ages 2-12

Take the “bored “out of board games! Spin the dial to discover a weather-related image, and then move to that spot on the board. Then, the next player can take their turn. First person to make it home wins!

All slides accessible by ramp have ADA compatible elevated transfers at either 12” or 16”

Northland Recreation, LLC. - Briana Cohen

Door Panel
Ages 2-12

Charmingly arched with flowers blooming in the window boxes on either side, Door Panel transforms any play space into a cottage getaway. Detailed with shingles and drainpipes, kids can reenact neighborhood scenarios and play house.

Northland Recreation, LLC. - Briana Cohen

Revolution Inclusive Spinner
Ages 2-12

Our Revolution Inclusive Spinner promotes an engaging and accessible playground environment for all children.
Children can ride in a way that's most comfortable for them. There are chairs for those who want to sit while spinning, and there's plenty of room for other kids who want to stand up. Children using wheelchairs also have space to ride on the spinner, and there is even room for a caregiver to assist children with special needs.

Inclusive Swing
Ages 2-12

This swing seat provides extra support, safety features, and additional room so all children can enjoy the carefree fun of swinging at the playground.

Generation swings provide the perfect solution, giving adults and kids a fun and immersive means of interacting on the playground. These face-to-face parent-child swings promote family fun and connection, enabling kids and their caregivers to play and engage like never before.
